

A. Interviewee's name

Robert Hinson

B. Time and place of interview

7:00 pm GMT

FaceTime Call

C. List several statements made by each interviewee. Indicate next to each statement if it is an example of growth mindset or fixed mindset. List each statement and label it either "growth mindset" or "fixed mindset".

He came from a very poor background but still knew that with hard work, dedication, determination and consistency he could become a prominent person (growth mindset)

His siblings did not believe in him because they said with such background that they're from, they can't be prominent people(fixed mindset)

D. Did you interviewee's stories involve grit (or lack of grit)? Explain.

The interviewee's stories involved grit because looking at the background he came from and the challenges faced, he wouldn't have gotten to where he is or succeeded without grit.

E. What surprised you about conducting this interview? What did you learn?

One thing that surprised me most was when the interviewee told me about his background, because looking at where he is now and the success he has now, it is hard to believe that he came from such low background. I learnt that in the long run, grit really matters in everything we do.
